Summary

My strength:

- Self Motivated
- Communicative
- Responsible
- Stress tolerance

GitHub: <https://github.com/CtrAtIDel>

Working in projects:

- 2020 Development file filter system driver for windows operating system. (Using C)
- 2021 Development Blockchain by building one (python)
- 2021 The system for monitoring student progress in the semester (Clean C++)
- 2021 Console application for text manipulation (C#, Docker)
- 2021 Distributed parallel system for matrix multiplication (Using C#, Kafka, grpc, Parallel interface).

Languages:

1. Russian, native
2. English, B2

Skills

C#, Java, C++, Python, git, Docker

Education

Moscow

NRNU MEPhI | 05/2023

ICIS, Information security.

Currently completing courses in computer science:

- 2019 Informatics. Lecturer I. Babalova
- 2020 - 2021 Algorithms and data structures. Lecturer L. Shustova
- 2021 Object-oriented programming. Lecturer L. Shustova
- 2021 Low-level programming language(Assembler arm64). Lecturer A. Vavrenyuk
- 2021 Operating systems (UNIX). Lecturer A. Vavrenyuk
- 2021 Parallel programming. Lecturer V. Roslovtsev

Study hard now:

- Database. Lecturer L. Shustova
- Neural networks. Lecturer A. Varfalomeev
- Industrial Java development. Lecturer S.Mitrofanov
